

Step 1. Print the card and cut out the outside box along the solid line. Do not cut along the dashed lines -- these lines are where you will fold the paper.

Step 2. Use a craft knife to cut the solid outline of the heart. Do not cut where the line is broken on either side of the heart.

Step 3. Fold the card horizontally (away from you). Carefully pinch the heart along the dotted line to make a crease away from you. Now, fold the card again vertically towards you while carefully making sure the heart folds in the opposite direction along the crease. This creates the pop-out effect.

Step 4. Have your kids write a special note on the inside of the card!
