

# Telling Time with Cogsworth

Do you know how to read the clock below? Read the following instructions, make your own clock and learn how!

The first thing you need to know:

The short, fat hand  points to the hour.

The long, skinny hand  points to the minute.

### You will need:

Scissors, Cardboard, Glue,  
Brad Fastener

### Directions: Assembly of Clock

- 1) Glue this entire page to a piece of cardboard.
- 2) Have an adult help you cut out the clock face, hour hand and minute hand.
- 3) Take your brad fastener and attach the clock face (bottom), minute hand (middle) and hour hand (top) together.

### Directions: Telling Time

Now that you have finished your clock, try moving the hour hand to an hour and minute hand to minute.

### Clock Hands:

Cut out each clock hand.
