

## Goofy Trick Card

Step 1: Print out the card on regular paper or cardstock. Cut out the card. (Don't cut along the dashed line, this is where you will fold the card.)

Step 2: Flip the card over and spread glue on the side behind Goofy. Fold the card along the dashed line. Make sure your edges line up and press down firmly.

Step 3: Hand the card to someone special and watch them try to open it. Make sure they read the message on the back of the card. They've been fooled!
