

Mini Easter Baskets

1. Cut out the basket. Fold each side of the basket away from you. Fold each gray tab away from you. Put glue on a gray tab and attach it to the next side of the basket, on the left. Do this all the way around the basket and it will begin to take shape.
2. Cut out the basket handle and glue each end to the inside of the basket.
3. Next, cut the green grass in strips and arrange it in your basket. Decorate the basket with the flowers, butterflies or dragonflies. Add a plastic egg, Easter chocolates or jelly beans and give it as a gift or use it as a table favor.

Mini Easter Baskets: Stickers & Grass
