

Mickey & Friends Patriotic Decorations

Print out all pages on regular paper or cardstock. The more times you print out the pages the longer your decorations will be. Cut out all of the pieces using scissors or a craft knife. Cut or punch out a hole where it is indicated on the stars. Fold the tabs over on the half-circle pieces and attach them to raffia or twine using glue or tape. String the stars on the raffia or twine. Space them out so there are some stars in-between the half circles. Hang up your decorations and enjoy!
