12 Hot Dogs

1 can of Breadsticks (we use Pillsbury) – you can also use crescent rolls in the can, just roll them out so they are long pieces

Butter (optional)

Mustard (just a tiny bit for the eyes)

Instructions

- 1) Pre-heat oven to 375 degrees.
- 2) Open can of breadsticks and stretch each piece so it will fit around entire hot dog .
- 3) Start at the top and make a little head wrap then continue wrapping all the way down the hot dog (overlapping but leaving small gaps)
- 4) Place on greased baking sheet.
- 5) Bake for 11-12 minutes.
- 6) You can then brush each one with a little butter (this is optional but makes them look yummy and taste even better!)
- 7) Add eyes with the mustard (easiest to use a toothpick).
- 8) Enjoy!
