HOW DOES NIGEL DO IT?

In the new animated adventure RIO 2, Nigel works as a fortune teller in the Manaus Market and you can be one too with this clever mind reading game! With the help of an adult, cut out the cards above. Ask a friend to think of any number between 1 and 63, but don't let them tell you. Show your friend each of the cards one by one, asking if the number they've thought of is on it. Keep the cards that feature your friends number to one side and add all the numbers in the top left hand corner - the total of these numbers will always add up to what your friend chose.
