green felt

Back collar
Cut 1 from
black felt

Front collar
Cut 1 from
purple felt

You'll need

Black felt
Purple felt
Green felt
2 yellow gems
Black feathers
Hair barrette

Reference

Instructions

1. Trace and cut the template pieces onto the appropriate color felt.

2. Using hot glue or craft glue, glue the purple front collar onto the black back collar, allowing black to show along all the edges of the purple collar.

3. Glue the green face onto the head, lining up the edges.

4. Glue the black horns on top of the face, lining the horns up with the horns on the head.

5. Glue the head to the front of the collar so the chin sticks out a little from the bottom of the collar.

6. Glue two yellow gems to the face for eyes.

7. Glue a few pieces of black feather to the back. Glue a barrette to the back. Allow the glue to dry completely before fastening it in hair.
