Mickey Original Grill Master Hat with Stickers: Instructions

Print out all pages on regular paper or cardstock. Cut out both sides of the hat. Glue the tab on the right-side piece to the side without a tab on the left-side piece.

Cut out the top part of the hat. Fold it in half towards you with the design on the inside. Follow the instructions on the paper to make the rest of the folds. It should look like an accordion.

Take the now-folded top part of the hat and glue one end to the inside of one of the side pieces. Then glue the other side to the other side piece. Match the two ends of the side pieces and glue them in place.

Cut out the stickers and let the kids decorate their new hat by gluing or taping them to it.
