

Reminder

Only a grown-up should use the scissors and cutting knife.

What You'll Need

- 8 1/2" x 11" cardstock (we recommend 110-pound paper for best results)
- Scissors
- Cutting knife
- Tape or glue

Tips

You can personalize your bracelet by drawing letters or pictures on the individual bracelet links.

How To Make it

1. Cut each square into strips along the colored lines provided.
2. Fold each strip in half with the color facing outward. Then fold each strip segment inward a second time, as shown.
3. Take one link and push the tops of each piece through the loops of a second link. Repeat until you have enough to completely circle your wrist.
4. Once you have enough links, tape the bracelet around your wrist.
