

Henry Hugglemonster CHARACTER MASK

Materials

Cardstock (we recommend 110-pound paper for best results)

Craft knife or scissors

Safety pin

Elastic cord

Instructions

Please note: cutting and use of safety pin is for grown-ups only!

1. Print the character mask on cardstock and cut it out.
2. Have a grown-up use a craft knife or scissors to cut along the dashed lines around the nose and eye holes.
3. Have a grown-up punch holes on the sides of the mask (the circles with the Xs in them).
4. Thread elastic cord through the holes to hold the mask in place. Adjust the length of the cord so the mask stays securely on your child's head.
