

Sharknado 4 Dots

How to Play:

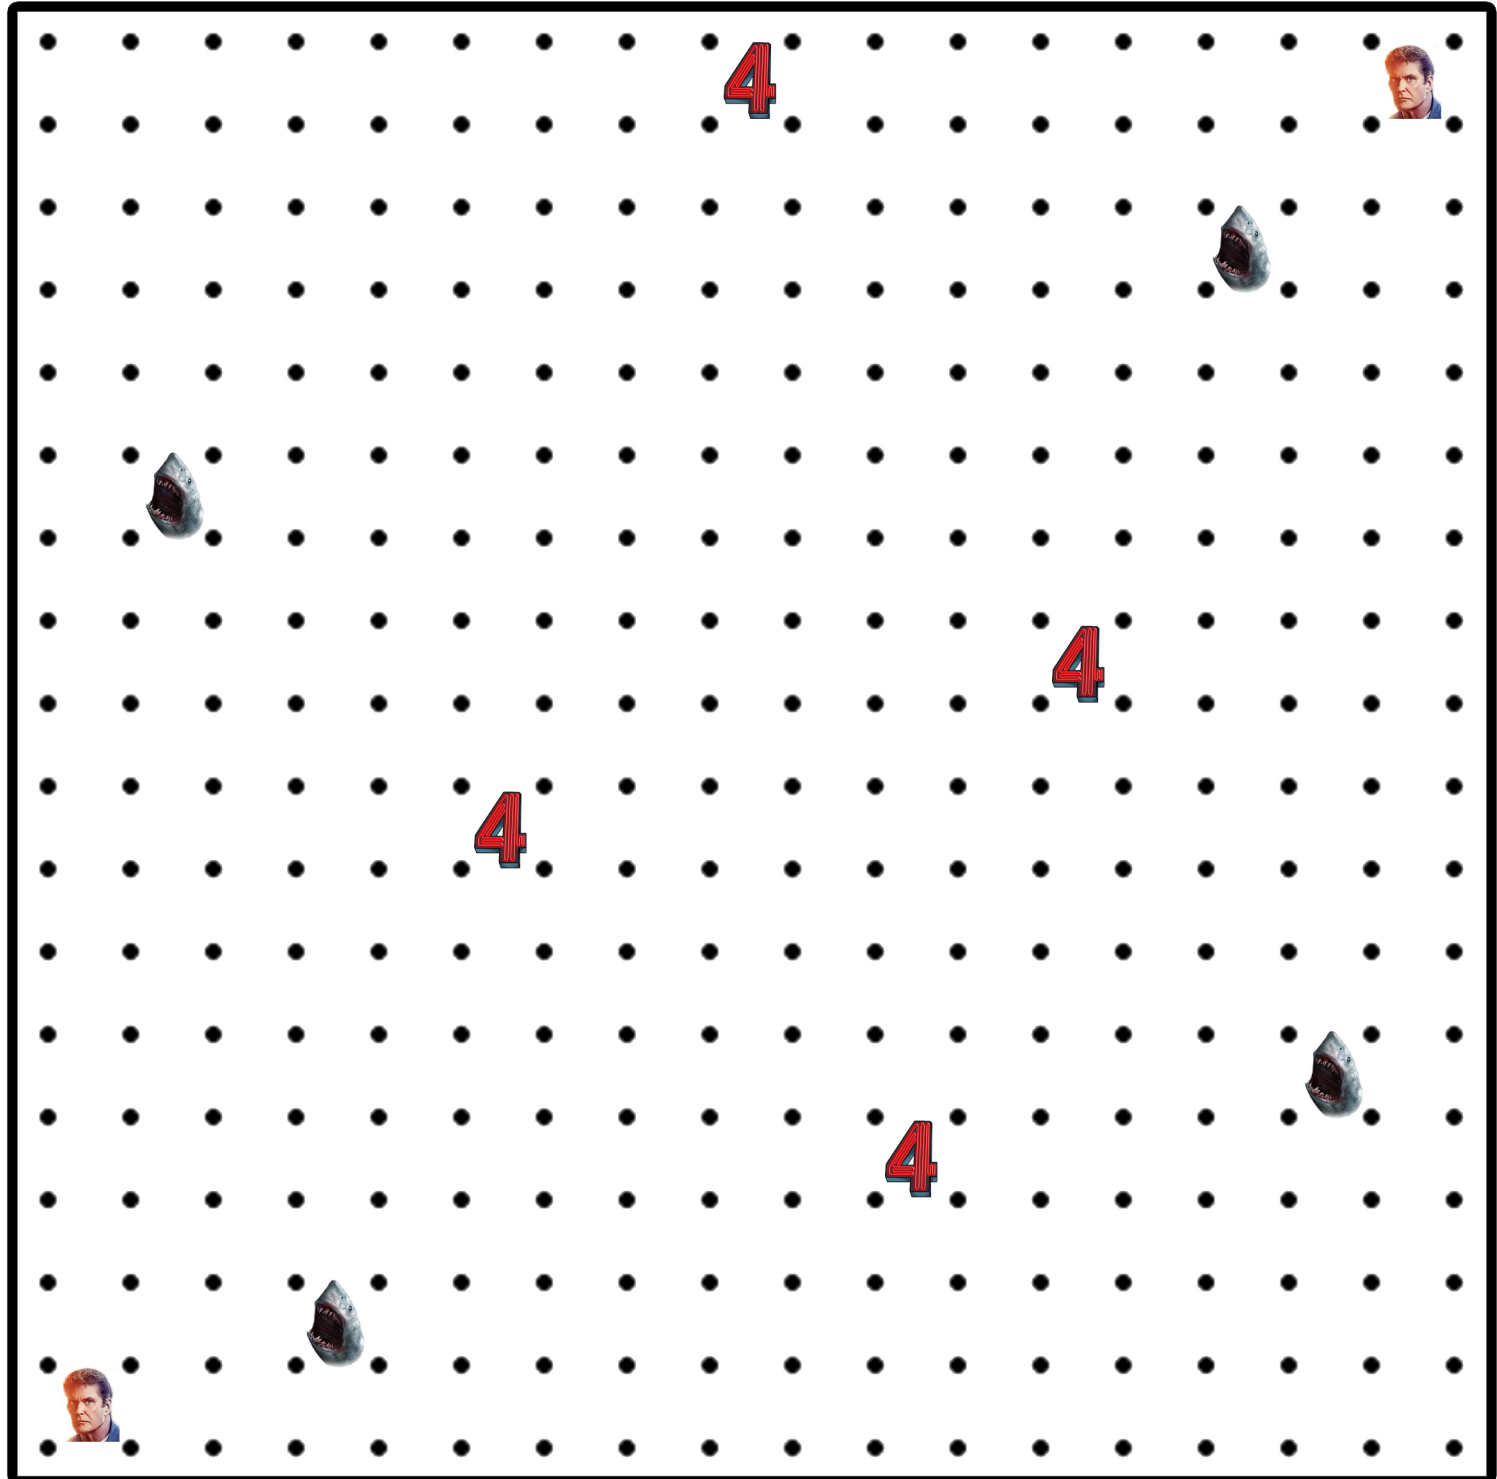

Take turns with a friend(s) connecting one dot to another with a straight line.

If your line completes a box, put your initial inside the box and draw another line.

This continues until the player doesn't complete a box.

Each 4 is worth four points, each shark is negative four points, and Hasselhoff is worth 10 points.

Whoever has the most points once all boxes are complete wins
