

Mia and me - Garland craft instructions

Hello crafting friends,

in order to build a real Mia garland, you do not need much.
Seek all the said items together and then you're ready to go!!!
Have fun while tinkering and enjoy your finished masterpiece.

TIP: Just ask some of your friends if they want to join, it's much more fun to tinker together.

What you need:

- ✓ blank paper
- ✓ craft scissors
- ✓ glue stick
- ✓ cord

This is how it works:

1. Print out the complete craft instructions.
2. Take your scissors and cut out the double triangles. Fold them in the middle, so you get the final triangles.
3. Stretch the cord, hang the triangles with the fold upwards and glue them together, so that you can see the same on the front and on the back.

FINISHED!

Attach cord here
