

# Sharknado 5 Dots

How to Play:

Take turns with a friend(s) connecting one dot to another with a straight line.

If your line completes a box, put your initial inside the box and draw another line.

If the line doesn't complete a box, it is the next players turn.

Each April is worth five points, each chainsaw is worth 10 pints, Fin is wrth 20 points, and each shark is negative five points. All other squares are worth 1 point.

Whoever has the most points once all boxes are complete wins
