

FLASHLIGHT ACTIVITY

SUPPLIES:

- Flashlight • PAW Patrol paw print template
- Black adhesive vinyl • Scissors
- Optional: Cricut machine and cutting accessories (mat, weeder, scraper, transfer tape)

INSTRUCTIONS:

1. Trace the PAW Patrol paw print template onto black adhesive vinyl, sized at 1 inch width to fit on your flashlight.
2. Cut out the paw print pieces from the vinyl.
3. Remove white backing from the vinyl pieces, then place each piece onto the clear piece of the flashlight to form a paw print.
4. Turn on the flashlight and shine the paw print into a dark space to see the signal.

Note: If a Cricut machine (or similar cutting machine) is available, load the paw print file into Cricut Design Space and cut out the file onto black vinyl with the machine. Remove the excess vinyl, leaving the black vinyl paw print on the white backing. Place a piece of transfer tape on top of the paw print, slowly pull it back from the white backing, bringing the paw print with it. Place the paw print on the center of the clear piece of the flashlight, then slowly pull back the transfer tape, leaving the paw print in place.
