

RESCUE KNIGHTS SHIELD AND ARMOR

SUPPLIES

- PAW Patrol: Rescue Knights – Shield and Armor Craft Template
- Paper or card stock
- Cardboard
- Crayons, markers, or any coloring supplies
- Glue
- Hobby knife or scissors
- Binding supplies (i.e., Tape, stapler, hole puncher, ribbon, etc.)

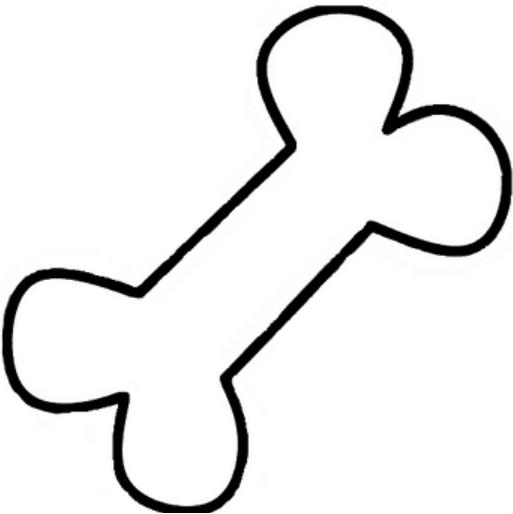

INSTRUCTIONS

1. Print out the templates on 8.5x11 paper or card stock.
2. Color, or have your child color the pages. (Shield, front/back of armor, and armor extenders.)
3. Using a hobby knife or scissors cut out the shield/armor/extender templates.
4. Trace the templates onto your cardboard and then cut out the cardboard. (You should have a Shield, front/back of armor, and armor extenders/shield holders.)
5. Depending on the size of your child you may need to use the armor shoulder extenders. If needed print out an extra page of armor extenders. Trace and cut out the extenders on your cardboard and tape them to the shoulder portions of the front and back of your armor.
6. Glue the templates on to your cut out cardboard. (Shield, front/back of armor, and armor extenders.)
7. Tape or glue on your shield handles to the back of the cardboard shield. (You can use just the paper template or cut out cardboard to make it stronger.)
8. Trim as necessary.
9. Cut out the holes on the sides of the front/back of armor with scissors or hobby knife.
10. The final step is to put the armor on your child, string ribbon through the armor side holes, and tie them to keep the armor on. Grab the shield and play!
