INSTRUCTIONS:

Using a paint brush, cover your Styrofoam ball with the paint and set aside to dry.

Measure out the exact amount of construction paper you will need to cover your empty toilet paper roll. Using fast drying glue, adhere the paper to cover the roll completely.

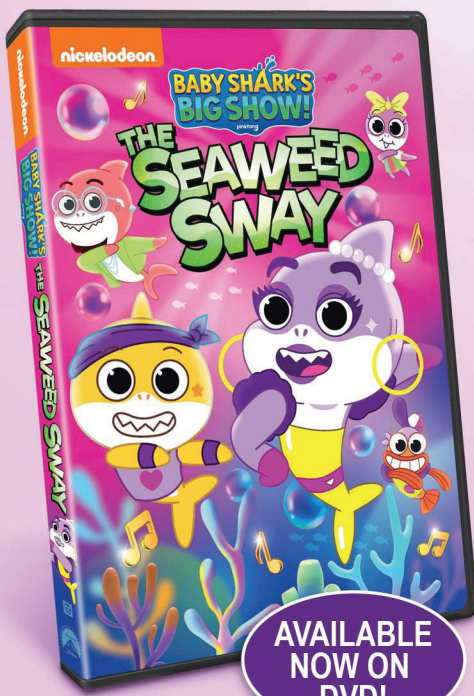

Once the Styrofoam ball is dry, glue it onto the top of the empty toilet paper roll.

Use the washi tape to conceal the base of the ball by wrapping it around the top of the roll and very slightly covering the base of the painted ball.

Glue craft pearl beads to decorate around the bottom of the mic handle or under the ball so that the microphone matches Sharki B's jewelry.

Use sticker gems to decorate the handle of microphone. Have fun with it!

Let your microphone craft dry if needed before playing.
