

DIY COSTUME

AVAILABLE
NOW ON DVD

SUPPLIES

- Heat Transfer Vinyl, light blue
- Felt in light Blue and White
- White short sleeve Dress Shirt
- White poster board
- Glue Gun & Glue
- Scissors

INSTRUCTIONS

- Make the hat by taking white felt and hot glueing 2 seams together. Fold the side edges up. Pinch and glue the front point and the back point.
- Push the fabric inward to create the top of the hat.
- Add blue trim out of strips of light blue felt. You want to create a triangular shape and have the front come to a point. Secure the blue felt and shape with hot glue.
- For the shirt, start by ironing the whole shirt first.
- Measure out and cut $\frac{3}{4}$ inch strips of vinyl the length of the shirt.
- Place vinyl on the shirt and cover with parchment paper then iron for 10-15 seconds.
- Let cool and then it's time to add the totally cool name tag.
- Make the name tags by using rectangles of white poster board with a safety pin glued to the back. Print out the *Good Burger 2* logo and tape to the name tag.
- Dude! Now you're ready to welcome everyone to Good Burger!
