

1. Print Lanny on regular paper or cardstock and cut out all of the pieces. Do not cut along the dashed lines -- this is where you will fold the paper.
2. With the design facing you, make all of the vertical folds in Lanny's torso away from you. Close the torso by gluing the A tab to the inside of the design.
3. Fold the bottom of Lanny's torso outward, then fold his feet down.
4. Fold the top of Lanny's torso like a box and tuck the tab inside.
5. Fold and glue the front and back of Lanny's head so the design is two-sided. Make sure the pieces are lined up evenly before the glue dries. Insert the neck into the top of the torso where you folded the top closed.
6. Fold each arm in half and secure so the design is two-sided. Do not get glue on the tabs at the ends of the arms. Fold those outward and use them to attach the arms to Lanny's torso. Glue the arms to Lanny and your elf is finished!
